

Students should be excluded from school if they have any of the following symptoms:

- Fever greater than 100.5
- Vomiting
- Stiff neck or headache with fever
- ANY rash with or without fever (consult district nurse for exception)
- Unusual behavior change, such as irritability, lethargy
- Jaundice (yellow color of skin or eyes)
- Diarrhea (3 watery or loose stools in one day with or without fever)
- Skin lesions that are “weepy” (fluid or pus)
- Colored drainage from eyes
- Brown/Green drainage from nose with fever of greater than 100.5
- Difficulty breathing or shortness of breath; serious, sustained cough
- Symptoms or complaints that prevent the student from participating in his/her usual school activities, such as persistent cough, with or without presence of fever, or
- Student requires more care that the school staff can safely provide

Only a licensed health care provider can determine a diagnosis and/or prescribe treatment and provide instructions regarding the student’s return to school.

Students needing exclusion due to illness should be separated from other students waiting for transportation from school setting.

The district nurse or local county health department should always be consulted regarding any written communication that may be developed to notify parents about disease outbreaks, risks to students, families, and staff and/or control measures specific to the outbreak.
