TOPIC: ORIS	MINUTES: Needs Assessment has to be updated in a shortened manner. Focus on categories to ensure the categories on SIP align with ORIS. We will need to add Academics and Reading. We will need to place things in SIP as indicators to ensure we are able to develop talent through PD's and allow for <u>broader</u> use of funding. Site Council will look over ORIS and regroup on March 17th so we can get to staff by April. Process will be for SC to review ORIS/SIP as to where we sit and what we need to add or remove and then present to the staff as a whole. <p>TOPIC:</p> <p>ESEA Conference</p>	<p>MINUTES:</p> <p>Jordan brought forward a question from a staff memeber regarding teachers going to ESEA. How were teachers chosen etc. Lori explained that district title funds as well as school title funds were used. The district asked for names from Admin at each sight and that was submitted. Because of the district goal to have all students reading by 3rd grade primary teachers were asked to attend by Lori. Also, the hope was to take an additional set of staff to RTI to allow for a broad opportunity to staff etc. In no way was the process done in a secretive manner nor in a manner that was done to slight any staff member. The intent was to take staff that were in primary roles as the conference was focused on reading as well as staff who would feel comfortable</p>	<p>PERSON/PEOPLE RESPONSIBLE:</p>

	<p>developing PD to bring back. The goal is to take an entirely different group of staff to the conference in Indianapolis next year.</p> <p>Team members who did attend will be putting information together to create PD as well as information to present the staff during staff meetings etc. especially as all staff who attended joined a variety of sessions to ensure there was a variety of learning and information.</p>
